

Empowering Security, Privacy, and Digital Trust

May was an eventful month for HKIT Security Solutions, marked by impactful awareness initiatives, educational programs, industry collaborations, and the launch of a new security service. We continue our commitment to strengthening cybersecurity awareness, privacy compliance, and secure digital transformation across organizations and educational institutions.

Cyber Security Awareness Session at Government First Grade College

As part of our ongoing commitment to cybersecurity education, HK Cyber Security Foundation, represented by HKIT Security Solutions, conducted a Cyber Security Awareness Session for students at a Government First Grade College.

The session was delivered by our CEO, Ms. Gayathri, who shared valuable insights on cyber threats, safe online practices, social media security, phishing attacks, password protection, and responsible digital behavior. The interactive session helped students understand the importance of cybersecurity in their daily lives and future careers.

Webinar: "The Next Threat is Already Learning"

HKIT Security Solutions proudly hosted an insightful webinar titled "The Next Threat is Already Learning", featuring experts from Faceoff Technologies.

The event was organized in collaboration with the DPO Association of India and focused on emerging AI-driven cyber threats, evolving attack techniques, privacy risks, and proactive defense strategies. The webinar provided attendees with valuable perspectives on preparing organizations for the next generation of cybersecurity challenges.

One-Day Cyber Security Workshop for Government First Grade College

HK Cyber Security Foundation, hosted by HKIT Security Solutions, successfully conducted a comprehensive One-Day Cyber Security Workshop for students of a Government First Grade College.

The workshop covered key topics including:

- Cyber Security Fundamentals
- Phishing and Social Engineering Attacks
- Password and Account Security
- Safe Internet Practices
- Data Privacy and Protection
- Career Opportunities in Cyber Security

The program combined practical demonstrations, real-world examples, and interactive discussions to help students build a strong foundation in cybersecurity.

Guest Lecture on AI and DPDPA at M.S. Ramaiah Institute

Our Founder, Dr. Harsha Thennarasu, delivered an engaging guest lecture on Artificial Intelligence (AI) and the Digital Personal Data Protection Act (DPDPA) at M.S. Ramaiah Institute.

The session explored the intersection of AI technologies and data privacy regulations, highlighting responsible AI adoption, compliance requirements, data governance, and the evolving regulatory landscape. Participants gained practical insights into balancing innovation with privacy and security obligations.

New Service Launch: Intranet SSL Certificate Generation & Deployment

HKIT Security Solutions is pleased to announce the launch of its new service for Intranet SSL Certificate Generation and Deployment.

The service enables organizations to secure internal applications and systems through trusted SSL/TLS certificates across both Windows and Linux environments. Key benefits include:

- Secure internal communications
- Encrypted data transmission
- Enhanced trust for intranet applications
- Simplified certificate lifecycle management
- Deployment support across diverse environments

INTRANET SSL CERTIFICATES

**SECURING YOUR INTRANET
INFRASTRUCTURE TODAY**

ADD HTTPS. ADD TRUST. ADD SECURITY.

We provide Intranet SSL Certificates to secure Internal or Local IPs, Internal Applications, Internal URLs, LAN IPs and more.

WHY INTRANET SSL?

- ENCRYPT INTERNAL COMMUNICATION**
- PROTECT SENSITIVE INTERNAL DATA**
- PREVENT "NOT SECURE" BROWSER WARNINGS**
- PROTECT EMPLOYEE LOGIN CREDENTIALS**
- STRENGTHEN INTERNAL CYBER SECURITY**

WE SECURE	OUR SERVICES	SUPPORTED ENVIRONMENTS
- Internal / Local IP Addresses - LAN & Private Network Resources - Internal Applications & Portals - ERP / HRMS / CRM Systems - Internal URLs & Hostnames - Routers, Firewalls & Network Devices - Development & Testing Servers - Windows & Linux Servers	- Intranet SSL Certificate Generation - Root CA & Intermediate CA Setup - Internal PKI Deployment - HTTPS Enablement for Internal Applications - SSL Deployment & Configuration Support - Certificate Renewal & Maintenance	- Internal IPs (192.168.x.x / 10.x.x.x) - Local Domains (Local / .internal) - Apache / Nginx / IIS / Tomcat - VMware & Virtual Servers - Windows & Linux Servers - Network Appliances & Routers

Chief Guest at Government First Grade College Valedictory Function

On 22nd May 2026, our Founder, Dr. Harsha Thennarasu, attended the Valedictory Function at the Government First Grade College as the Chief Guest.

During the event, Dr. Harsha distributed participation certificates to students who successfully attended the One-Day Cyber Security Workshop conducted by the HK Cyber Security Foundation on 16th May 2026.

Addressing the students, he emphasized the growing importance of cybersecurity awareness, continuous learning, and responsible digital citizenship in today's technology-driven world.

Looking Ahead

At HKIT Security Solutions, we remain dedicated to enhancing cyber resilience, promoting privacy awareness, and enabling secure digital transformation. We thank our partners, educational institutions, and participants for their continued support and look forward to delivering more impactful initiatives in the coming months.

Stay Secure. Stay Compliant. Stay Ahead.
